Dear Justin and Chris,

I just wanted to drop you a line with regard to the service Edupi Australia has provided to our business. Having used many recruitment firms over the years, I have been very impressed with the services you offer.

Justin and the team at Edupi provided us with excellent service during the whole immigration/recruitment process, including after sales service that you wouldn't expect from a recruitment company.

The candidates that were presented to us have been of an excellent standard, of which we have employed 6 chefs over the past 3 years. These chefs now the integral core of my kitchen team.

I also want to thank for the migration advice you have provided for some of my friends and family. When told by other agents there was no hope for these applicants, you have succeeded in finding a solution every time.

Thanks to everyone at Edupi and I wish you the best of luck with your business in the future.

Kind Regards

Brian Ahearne
Director
